Authorization for this examiner's amendment was given in a telephone interview with William Zychlewicz on 04/29/2008.

The application has been amended as follows:

Art Unit: 2624

3. The following is an examiner's statement of reasons for allowance: Claims 8, 15, and 22 were amended to include the allowable subject matter of previously objected to claims 9, 16, and 23. Specifically, the filtering of an image based on a ratio of horizontal and vertical projections of an image that are calculated by summing the images in a horizontal and vertical direction does not exist in the known prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Daisaku Horie, US 7065261 – calculates horizontal and vertical projections, but does not adjust a filter based on a ratio of the projections.
- Gokturk et. al., US 7203356 – calculates horizontal and vertical sums and locates a head region.
